DIGITAL STORYTELLING – 5 DAYS COURSE IN COPENHAGEN

The course will focus on theoretical background and practical use of digital storytelling and building narratives as well as the opportunities for creating teaching and learning resources through photo stories and if-then adventure stories.

Methodology is based on theoretical lessons and presentations of examples of good practice as well as discussions and experience comparisons. Participants will have the opportunity to get to know the theoretical background as well as go through a series of practical exercises in order to develop skills for practical use of digital storytelling software and various free online content management tools. A strong focus will be on a systematic curation of content and form through building narratives.
